#### Hello everyone.

Welcome to Marhaba, a new website in English for young people. Thanks for taking a look. There are three of us in the Marhaba team. We all study at King Faisal Intermediate School in Jubail.

Each week we're hoping to have news, topics, facts and information about life here and around the world. Yazeed is editing the topics. ### Markaba is nearly ready!

Hi, everyonel Sami here. We're working in the school library. It's our office. We're preparing a page for this week's *Marhaba* website. It takes a day to do this.

Yazeed and Adel are working on an article and a picture. Adel is busy so he isn't looking at the camera. Yazeed isn't smiling in the photo because he always forgets to say, 'cheese'. I'm taking the photo. I usually take the photos.

# An accident in the jungle

Bruce Scott and his wife Lesley are from London. They were in their 60s when Bruce finished his work as a photographer. They decided to travel the world. They sold their flat in London and bought a large car. They set out on their journey and spent four years driving around South America. Bruce told us what happened when they were driving across Brazil.

Bruce told us about the accident: 'We were going along a small road through the jungle on our way to Manaus, a city about 300 kilometres away. We were driving over a small bridge when it suddenly collapsed. The car fell into the ravine below. I don't know how we weren't badly injured.'

After the accident Bruce and Lesley climbed out of the ravine. They did not know who to

phone in Brazil so Lesley called her sister 8000 kilometres away in England. Lesley told her about their accident. Lesley's family rang the British police and they rang the police in Brazil. The Brazilian police sent a helicopter to look for Bruce and Lesley. When the helicopter pilot found them, he took them to Manaus where they rested. After seeing a doctor Bruce and Lesley began their travels again.

# Saudi Stars: Communication

People communicate in different ways, for example by speaking, by writing, by using their hands and by showing expressions on their face. We can learn information by studying how we communicate. For example, we can learn a person's age from their grammar — a young child often makes more grammar mistakes than an older person. We can tell how a person is feeling by looking at their face — for example, if a person is smiling, he or she is usually happy — or by listening to people's tone of voice — the emotion in their voices when they speak. If a person speaks angrily, that person is probably angry. We can often say where someone comes from when we hear how he or she pronounces words. People from different places sometimes say the same word differently. Finally, we can often tell who a person is speaking to from the choice of words. We might say informal words like *hi* or *bye* to our friends but formal phrases like *good evening*, *sir* or *excuse me*, *madam* when we meet a stranger.
